mex+ Dental DR

Intraoral X-ray detector

- CMOS sensor with ergonomic design for patients' oral cavity
- Finest imaging of dental exposures due to 20µm pixel pitch
- Active imaging area of 26x34mm (Size 2)
- Shockproof detector with bending resistant cable
- High resolution of 20 lp/mm and 2,2 mega pixels
- Protection against dust and waterproof function (IP68)
- Fast data transfer within seconds by USB 2.0 interface

meX+ Dental DR in Action

Hera DentVet Acquisition Software

- Simple and user-friendly work process
- Optimized for the processing and display of dental images
- Emergency mode for immediate exposures
- Allocation of exposures in dental format of cats and dogs
- Smart tools for post-processing, measurements and annotations
- Export of images in DICOM, TIFF, BMP and JPEG

Inclusive modules

- **Worklist:** Reception of X-ray tasks from the practise management software
- **DICOM Send:** Automatic send function of images in archiving systems

Optional: meX+DG70 - Dental X-ray Generator

Model:
"Mobile Stand"

Model:
"Wall Mount"

Specifications

Sensor Size	2
Active Image Area	26 x 34 mm
Sensor Type	CMOS
Pixel Pitch	20 µm
Pixel Number	1312 x 1720
Resolution	20 lp/mm
Safety Class	IP 68
Interface	USB 2.0
